

# LoRa - Long range network

## Übersicht

Mitlerweile gibt es China LoRa module wie Sand am Meer. [ESP32 LoRa Module](#) Das Modul hat ein kleines Oled Display, LoRa und ein ESP32 onboard. Hier ein kleiner netter Beispiel sketch für Senden und Empfangen.

Ich hafte nicht für den Code, den ich weiß zugegeben nicht ob der Sketch den EU Richtlinien entspricht. Nutzen auf eigene Gefahr! In der LoRa Lib muss auf alle Fälle die Leistung heruntergestellt werden.

## Sender

[sender.cpp](#)

```
// This example just provide basic LoRa function test;
// Not the LoRa's farthest distance or strongest interference immunity.
// For more informations, please vist www.heltec.cn or mail to
support@heltec.cn

#include <SPI.h>
#include <LoRa.h>
#include<Arduino.h>
#include "SSD1306.h "
